This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Report for the Year 1900-1901.

Read at the Council Meeting held in the Audit Room of the Chetham Hospital, Manchester, November 1st, 1901.

Since the last Annual Meeting, held on the 24th October, 1900, two volumes have been issued to the Members. These are volumes 41 and 42. Volume 41 was "Some Court Rolls of the Lordships, Wapentakes and Demesne Manors of Thomas, Earl of Lancaster, in the County of Lancaster, for the years 1323-4." The manuscript was kindly presented to the Society by Mr. Farrer, a member of the Council, who also edited the volume. As Mr. Axon's "Quarter Sessions Records," promised in our last Annual Report as No. 41, was not ready, this volume of Court Rolls was substituted and issued as the second volume for the year 1899-1900.

Volume 42 was the first part of the "Manchester Quarter Sessions Records," and was edited by Mr. Ernest Axon in collaboration with Mr. Charles Sutton. This has been issued as the first volume for the year 1900-1.

The second volume for the same year, at present in the press, is a fourth volume of Miscellanies, a portion of which has been in type for some years. It contains (*a*) A List of Freeholders for Cheshire, 1578. (*b*) The Ordination Book of the Diocese of Chester, 1542-1558. (*c*) Index to recently discovered Wills at the

Bishop's Registry, Chester, 1621-1700. The whole of items (*a*) and (*b*) are printed off and more than half of item (*c*), so that the Council hope to be able to issue this volume very shortly.

As to future work the Council have again to tender their very cordial thanks to Mr. Farrer, who has ungrudgingly placed his splendid store of transcripts at their disposal. Mr. Farrer has not only presented the Society with the transcripts for another volume of Lancashire Fines to follow on volume 39, but has also kindly agreed to edit it. An interesting work, which the Council hope to issue at an early date, is the first portion of the "Court Rolls of the Lordship of Halton," which are being transcribed by Miss Ethel Stokes, who has also kindly undertaken the work of editing.

The following is a complete list of the Society's publications already printed up to the present time:

GENERAL PREFACE.

The following Volume of Miscellanies was originally begun nearly eight years ago, and carried as far as the end of the second item, but owing to a question arising as to the Record-type used, it was arrested at that point, and for various other reasons has remained incomplete until the present. Some months ago, however, when it was found impossible to complete a volume which was to have been No. xliii of the Society's publications, the Council decided to issue this suspended volume of Miscellanies, to take the place of the one that had failed. The Council considered that under the circumstances, the members would probably be willing to receive the documents in their present form, even with the slight variations in the "peculiars," rather than that the Society should be put to the cost of reprinting the whole.

[1] The Ordination Book of the Diocese of Chester, a quarto book on paper, containing 208 pages, was no doubt originally begun with the inception of the See in the Autumn of 1541, but the back has long ago perished, and with it the first one or two pages. The first entry is in the middle of the list of sub-deacons for the Easter Ordination in the year 1542, so probably one if not two Ordinations are missing. From this date until the end of the volume (17th December, 1558) the lists are apparently complete.

There is, however, a curious break between the December Ordination in 1547 and the Easter Ordination in 1555. Unless the ordinations for this period were entered in another volume, which has since been lost, we

[1] In the Introduction to this item (p. 27), the Editor promised that a full account would appear in the General Preface. He regrets that the pressure of work there referred to, still obtains, so that the above short reference is all that it is possible to compile at present.

must conclude that during this time none took place at Chester. A similar gap for an almost precisely similar period occurs at Durham.[1]

Mr. Frere suggests[2] that the cessation was due to the introduction of the new Ordinal in 1550, or rather to the knowledge which existed as early as 1547 that changes were coming, a knowledge which did not carry approval with it among Cheshire and Lancashire men who were contemplating taking orders.

That it was an actual cessation and not a mere fault in the record, is rather borne out by the fact that one of the deacons on *folio* 56, John Millington, appears to have been ordained priest, at London, in 1554,[3] while a deacon on *folio* 58, *dorso*, William Herdman, was not ordained priest until the ordination lists were resumed in 1555.

The second volume of Ordinations at Chester begins in 1562, and continues with some gaps until the year 1611. It is hoped that the Society will ultimately print this also. From 1611 until 1752 no ordination books are now to be found at Chester.

The Index to Wills, etc., now preserved in the Diocesan Registry at Chester for the years 1621-1700, is in continuation of the Index published in the last Miscellaneous Volume (xxxiii), and has been compiled and edited by Mr. W. H. Price, whose excellent work is already known to most of the members.

Of the three items, the first two are paged continuously and have a common index, while the List of Wills has a separate pagination. The Editor takes this opportunity of tendering the Society's grateful thanks to John Gamon, Esq., the Registrar of the Diocese of Chester, for kind permission to transcribe and print the Ordination Book and the List of Wills.

INTRODUCTION.

IN the First Volume of Miscellanies the late Mr. Earwaker edited an interesting list of Freeholders in the County of Lancaster for the year 1600, and the Council have thought it desirable that a similar return for Cheshire should be printed. I have made a careful search for such a document and can find none so full and detailed as that drawn up in 1578, when, with troubles looming in the near future, Elizabeth called for a particular account of all her subjects in Cheshire who were liable to supply troops for land defence. In addition to this complete Catalogue of Land-owners we have an opportunity of comparing their relative standing in the numbers of the men they were expected to supply.

The document itself, now at the Record Office, is evidently a fair copy made, from the returns sent up from the different hundreds, by a clerk not well acquainted with Cheshire names, for though the names of the leading people are usually correctly rendered, among those of the minor gentry are many obvious mistakes. Thus, in Wirral Hundred Richard Linacre or Linaker, of Grange, appears as "Lingarte," Neston is written Weston; in Macclesfield Hundred, Shird appears as Shearle, Thornicroft as Shorincrofte; in Northwick

Hundred, Smethwick is disguised as Sanethwicke and so on. Doubtless there are several such errors scattered through the list, but they can usually be easily detected, and I merely mention this to put readers on their guard against placing a too implicit trust in the document. Where explanations are added in square brackets it has only been done when I have had thoroughly good evidence from other sources that such elucidations are the correct ones.

I may add that there are several incomplete lists for the period which are interesting to compare with this one and sometimes clear up difficulties. Such an one has been printed by Mr. J. Paul Rylands, in the Visitations of Cheshire, which he edited for the Harleian Society. Another is to be found among the Harleian Manuscripts, in No. 1988, and is for the following year, 1579.
